

ONLINE RESOURCES

Online resources provide a variety of tools you can use to supplement the Official CIW Courseware. This course contains the following online resources:

Exam Study Guide provides focused study for individuals preparing to take the high-stakes CIW Site Development Associate certification exam.

Supplemental files include lab files used to complete the course labs, handouts, answers to student exercises and quizzes, and appendixes.

Pre-Assessment test that mirrors the number of questions and distribution of skills objectives covered on the high-stakes CIW Site Development Associate certification exam.

Lesson Quizzes to reinforce the objectives in each lesson.

Hands-On Labs are completed on the user's machine with the provided lab files. Users will need to obtain the necessary software for these labs.

Online Exercises including glossary flashcards, matching exercises, fill-in-the-blank exercises, crossword puzzles and true/false questions -all provide immediate feedback.

Course Mastery is an online tool that delivers CIW course review questions. This tool is based on research in learning and memory, and it delivers an accelerated teaching solution that reduces training time and boosts retention of material in the learner's memory to provide 100-percent mastery of all content.

Movie Clips provide supplementary instruction in a multimedia format, and enhance the coursebook narrative and labs.

Online Practice Exams consist of different exams, drills, quizzes and reviews designed to help assess knowledge on specific objectives and reinforce learning.

VUE Exam Voucher is good for one take of the high-stakes CIW Site Development Associate Exam (1D0-61B) at any Pearson VUE testing center worldwide. VUE is a third-party provider of proctored testing environments for high-stakes certification exams.

Note: Hard copies of the Self-Study Guide are available for purchase by students in the Americas, Western Europe, Australia, and Oceania only. International students who order the electronic version of the course will receive the electronic (non-printable) online version of the Self-Study Guide.
